BARS & KITCHENS

You'll never run short of places to dine at Vivanta Panaji. There's 24-hour dining amidst palm trees, at Latitude, for those without a fixed timetable. Situated in the atrium with a wood-fire pizza oven and live kitchen, the Latitude menu is specially created to offer only the freshest ingredients available.

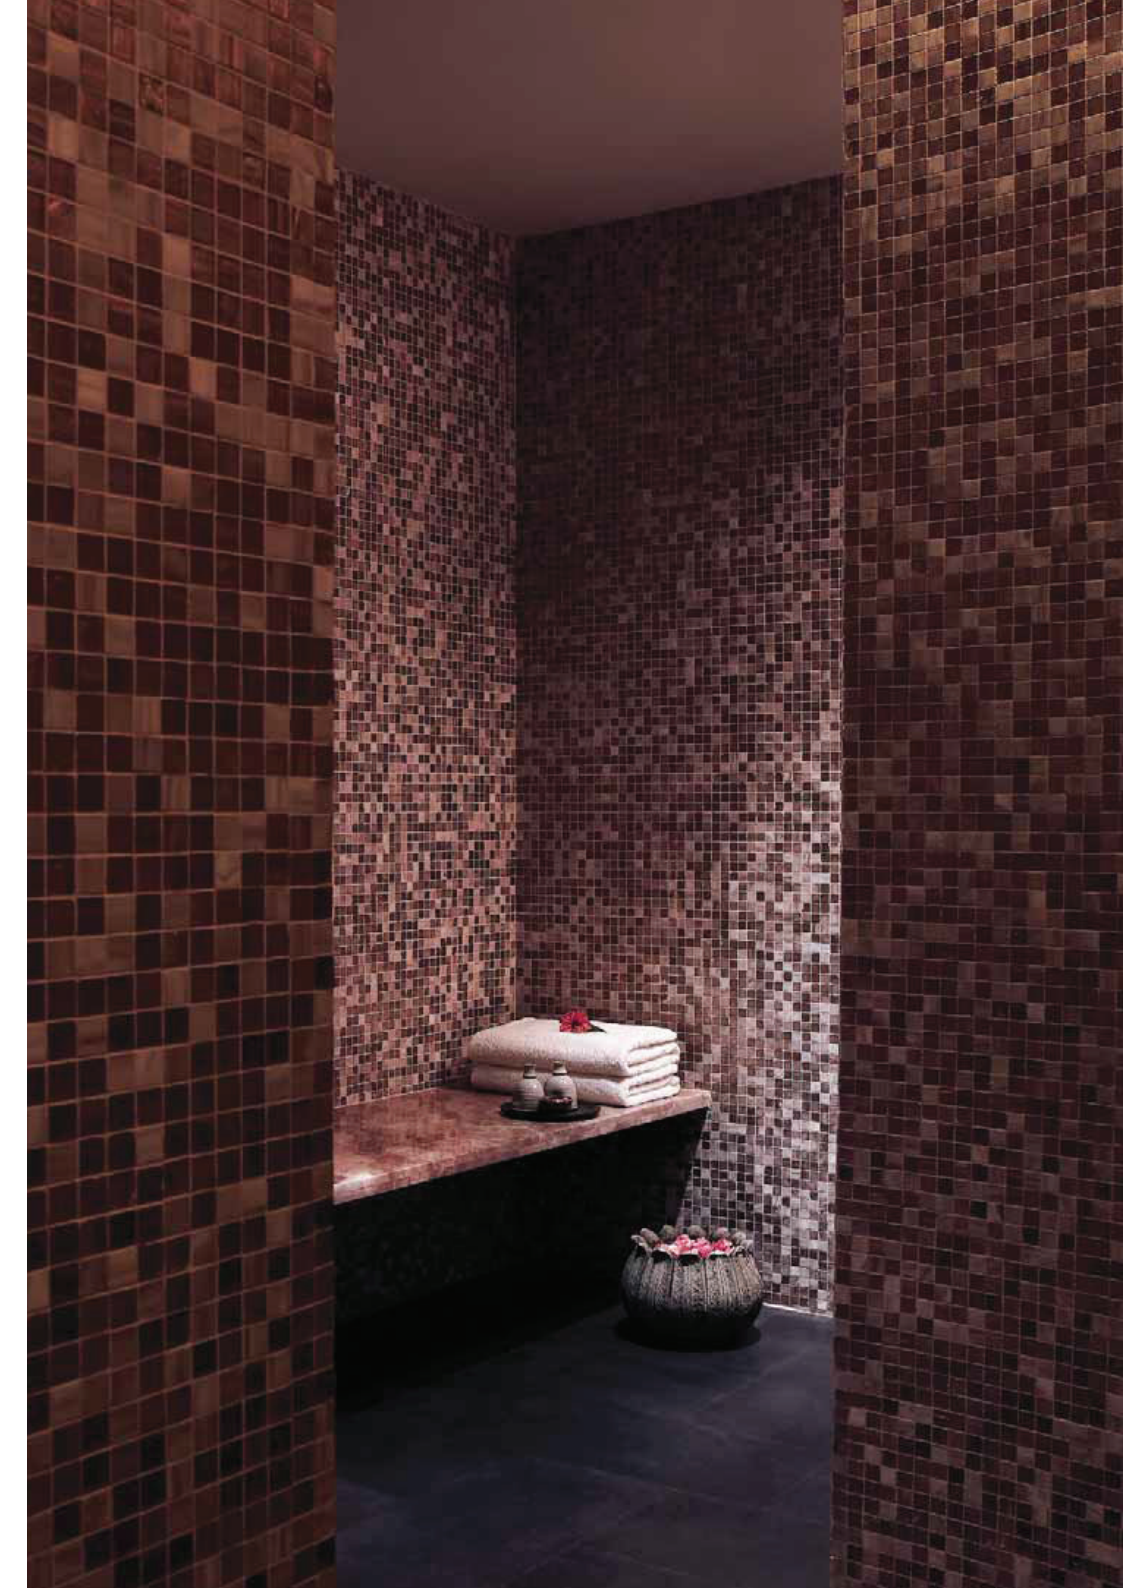

Tamari, at the lobby level, offers an exotic mix of Chinese, Thai and Japanese cuisine. The live counter where you can watch and interact with the chefs as they prepare teppanyaki, sushi and sashimi is not to be missed. Two private dining rooms ensure a cosy atmosphere for more private occasions.

If you have a sweet tooth, Caramel, the in-house Deli, with its array of savouries is the place for you.

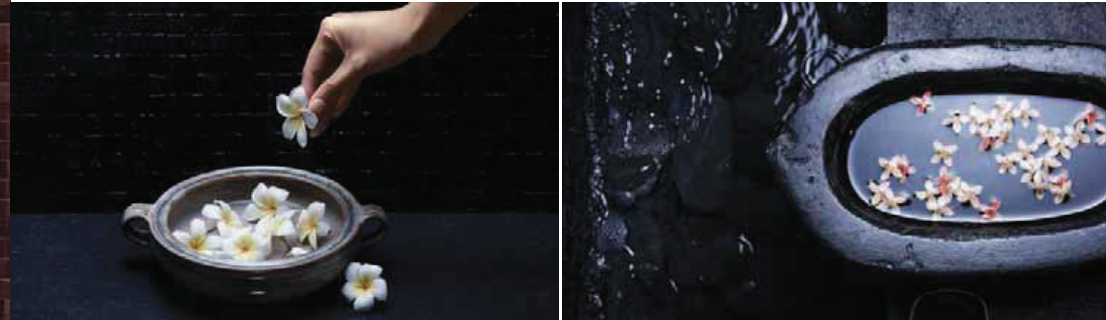

And finally, Tease - the high-octane Vivanta bar - with its signature cocktails, virtual wine rack and pulsating music provides all the buzz you're looking for.

MOTIFS

With each Vivanta hotel we present a few novel offerings to our guests. These motifs are a representation of the Vivanta philosophy of hospitality with a difference.

At Vivanta Panaji, transportation takes on a new meaning with our yacht transfer service from Vasco jetty near the airport to Panaji jetty just 1 kilometre away from the hotel. Guests have the opportunity to marvel at some scenic vistas while saving their valuable time.

We try and think of every little detail, like making ready refreshments available to all guests in the form of complimentary non-fortified drinks served in the lobby all through the day.

Romance has a special place at Vivanta. A romantic dinner on the rooftop can be organised for a couple looking to share a few special memories while being treated to an incredible view of the Mandovi river. You can choose your own preferences from our menu, enjoy your own private barbecue, and give your order to the executive chef himself.

We understand the need to make the most of your own time. Every room is furnished with a day-bed at the window. Just what you need when you want to relax, introspect or maybe just take in the view.
